-

Projects

E-Commerce Platform | Route Academy | Feb 2025

- Built a fully functional e-commerce platform using React.js with Context API for state management.
- Implemented authentication and authorization using Formik and Yup for form validation.
- Integrated Stripe payment gateway and product details API for seamless transactions.
- Designed a responsive Single Page Application (SPA).
- [Demo](#) [GitHub](#)

CRUD Application | Route Academy | Oct 2024

- Developed a product management system using Bootstrap and JavaScript, supporting add, update, delete, and search features.
- Utilized local storage for efficient state management.
- Ensured responsive design for cross-device compatibility.
- [Demo](#) [GitHub](#)

Weather App | Route Academy | Dec 2024

- Created a responsive weather application using HTML, CSS, JavaScript, and Bootstrap.
- Integrated Fetch API to retrieve real-time weather data.
- Designed a professional, user-friendly interface.
- [Demo](#) [GitHub](#)

Note App | Route Academy | Feb 2025

- Developed a note-taking application with React.js, featuring authentication and CRUD operations.
 - Implemented form handling with Formik and validation with Yup.
 - Designed a responsive and intuitive user interface.
 - [Demo](#) [GitHub](#)
